

End User Licence Agreement

This End User Licence Agreement ("Agreement") is a legal agreement between the entity you represent ("Licensee") and **Technical Simulation Consultants Ltd** ("Licensor" or "TSC") for the commercial software accompanying this Agreement ("Software"). By installing, copying, or using the Software, you agree to be bound by the terms of this Agreement.

1. Grant of licence

TSC grants the Licensee a non-exclusive, non-transferable, limited licence to install and use the Software solely for internal business operations, strictly in accordance with the licence type and parameters specified in the applicable order form or invoice.

2. Updates and maintenance disclaimer

This Agreement governs the specific version of the Software provided at the time of purchase. TSC is under no obligation to provide updates, upgrades, patches, bug fixes, or technical support under this Agreement. Any future updates or upgrades released by TSC are provided at its sole discretion and may be subject to additional fees, separate subscription agreements, or updated licensing terms.

3. Deployment limits

The usage of the Software is restricted by the following boundaries:

- **Deployment metrics:** The Licensee may only install and execute the Software up to the maximum number of users, seats, or designated devices specified in the applicable purchase order.
- **No concurrent sharing:** Licences assigned to specific users or devices cannot be shared or used concurrently by multiple parties unless explicitly authorized in writing.
- **Licence transfers:** The Licensee may transfer the Software to a replacement user or device only in accordance with the Licensor's standard transfer policy and if the original instance is permanently decommissioned.

4. Commercial restrictions

The Licensee agrees to adhere to the following operational boundaries:

- **No modification:** Do not alter, adapt, modify, or create derivative works of the Software.
- **No engineering:** Do not decompile, disassemble, decrypt, or reverse engineer the source code.
- **No redistribution:** Do not rent, lease, lend, sell, distribute, or sublicense the Software to external third parties.

5. Intellectual property

The Software is licenced, not sold. TSC retains all right, title, and interest in and to the Software, including all copyrights, patents, trade secrets, trademarks, and corporate intellectual property rights.

6. Termination

This Agreement remains effective until terminated. Licence rights will terminate automatically without notice from TSC if the Licensee fails to comply with any material term. Upon termination, the Licensee must immediately cease all use of the Software and destroy or delete all digital copies from all systems and hardware.

7. Limitation of liability

The Software is provided "as is" for business use. To the maximum extent permitted by law, TSC shall not be liable for any commercial losses, lost profits, data corruption, business interruption, or consequential damages arising out of the use or inability to use the Software.

8. Governing law

This Agreement shall be governed by and construed in accordance with the laws of the United Kingdom, without regard to its conflict of law principles.
